

Master of Business Administration: Health Services Administration Specialization

College of Business Administration

SAN DIEGO STATE
UNIVERSITY

Overview

The Masters of Business Administration Specialization in Health Services Administration is designed to give students the opportunity to integrate the knowledge they gain in earning their MBA with 12 units of coursework in Public Health. This knowledge helps to prepare students to work in various administration positions within the healthcare field.

MBA Course Requirements

For general MBA program requirements please refer to the Official Program of Study for the Master of Business Administration (MBA).

Health Services Administration Specialization Description

Health Services Specialization (12 units): take ONE of the required courses and choose THREE additional courses as listed below.

Specialization Electives

The following course is REQUIRED:

- PH 641 – Introduction to Health Services (offered in the Fall)**

If it is not possible to take this course, you may take the following course in its place:

- PH 605 – Health Services Administration*

Choose THREE of the following courses:

- PH 742B – Health Insurance and Financing Systems**
- PH 743 – Hospital and Ambulatory Systems Management**
- PH 748 – Health Services Competitive Strategy and Marketing**

***Offered each semester **Offered once each year ***Offered every other year**

MIS 688 (Information Systems & Strategies in Orgs) is a recommended elective for all MBA students. This class does not count toward the Health Services Administration specialization, but will count towards the remaining electives students need to complete.
