College of Business Administration  
Graduate Committee  

Minutes: February 21, 2006, 10:00 am, Dean’s Conference Room  

Members:  
Present: Rick Gore, Heather Honea, Murray Jennex, Mehdi Salehizadeh, Chamu Sundaramurthy  

Excused: Ken Marino  

The committee discussed and approved a new course proposal, IDS 755, entitled “Information Systems Security Management.” For the past two years the contents of this course have been offered as IDS 696 – a Special Topics Course. The IDS Department wishes to offer this class on a permanent/regular basis. The course is expected to be of particular interest to students enrolled in SDSU’s Homeland Security masters program.  

Item 2 Graduate Curriculum  
The committee continued its debate and discussion on the MBA/MSBA curricula. Once again, the committee examined the various aspects of the graduate curriculum, reviewed the structure of the MBA programs offered by a number of other “comparable” institutions, and considered some possible alternatives to the current program at SDSU. Members agreed that in proposing any new MBA curriculum, the committee needs to have: the full details of the CBA strategic “master” plan (the chair was given the task of inquiring the plan’s likely timetable from Jim Lackritz); and a better understanding of the job trends in the external environment. Further examination of this item will take place at the next meeting.  

Adjournment: 11:30 am  

Next meeting: Tuesday, March 7, 10:00 am, Dean’s Conference Room
