Assistant Professor: Information Systems

The Management Information Systems (MIS) department in the College of Business Administration at San Diego State University (SDSU) invites applications for a tenure-track information systems position at the assistant-professor level. The appointment will begin in August 2016 and is contingent on state funding. Salary will be commensurate with qualifications and experience.

The person holding this position will be responsible for developing and teaching graduate and undergraduate courses in information systems. Qualified applicants will have a doctoral-level degree in information systems or a related discipline by August 2016 and must have a record of teaching excellence and high-quality research commensurate with experience. Candidates should have a solid foundation of information systems curriculum knowledge (e.g. systems analysis and design, data management, data communications, programming, management of information systems, etc.) The ideal candidate will have expertise in big data, with a focus on data integration (ETL, data marts, Hadoop clusters, NoSQL data stores, etc.) and will be expected to integrate this expertise into existing courses and/or to develop new courses. Experience in grant writing and conducting grant-funded and multidisciplinary research is desirable.

The MIS department is a multidisciplinary department, which includes eleven full-time tenure-track faculty members in the areas of supply-chain management, information systems, statistics/business analytics, and business communication. Additionally, there are several full and part-time lecturers. The department offers the Bachelor of Science in Business Administration (BSBA) – Information Systems Major, Master of Science in Information Systems (MSIS), and MBA specializations in supply-chain management, information systems, and project management.

The College of Business Administration enrolls approximately 4500 undergraduate business majors and about 600 graduate students pursuing the MBA, MSIS, and Master of Science in Accountancy (MSA) degrees. San Diego State University is the oldest and largest university in San Diego and the third largest in California. It offers 89 bachelor’s degrees, 78 master’s degrees, and 22 doctoral degrees across seven colleges and two campuses. The university is proactive in forming partnerships with business and industry as well as with state and federal governments. The MIS department is supported by an advisory board consisting of business leaders from the region who provide curriculum advice, student internships, and research projects.

SDSU is a large, diverse, urban university and Hispanic-Serving Institution with a commitment to diversity, equity, and inclusive excellence. Our campus community is diverse in many ways, including race, religion, color, sex, age, disability, marital status, sexual orientation, gender identity and expression, national origin, pregnancy, medical condition, and covered veteran status. We strive to build and sustain a welcoming environment for all. SDSU is seeking
applicants with demonstrated experience in and/or commitment to teaching and working effectively with individuals from diverse backgrounds and members of underrepresented groups.

Apply via Interfolio at http://apply.interfolio.com/30230. Review of applications will begin immediately and will continue until the position is filled. The contact person for this position is:
